

HART UPVC Hybrid Folding Goal

Accessories Provided

1. UPVC Pipes
2. 4 x Aluminium Corner Joints
3. Aluminium Tension Bars / 6 Pieces
4. 2 x Aluminium Hinges
5. Match Quality Net
6. Bungee Straps for to Secure Net
7. "U" Shaped Grass Spikes

Step by Step Set Up

1. While removing parts from the carton, simply start connecting the pre-attached pipes.
2. Build the bottom base section of the goal first with the Aluminium Hinges.
3. Attach the upright posts and Cross Bar.
4. When goal frame is set up - move onto the 3 x tension bars. Take note of the angle of these bars.
5. Connect half the tension at a time. Cross bar tension bar has the longer return length. Base bar tension bar is on less of an angle and shorter length.
6. Once the tension bars are connected on the Cross bar and Base bar, start connecting them together in the middle, making sure the push buttons are secured in place.
7. Goal frame should be fully set up.

Tension Bars

Connect to Base bar

Connect to Cross bar

9-794-2 | 9-794-3 | 9-794-5 | 9-794-7.3

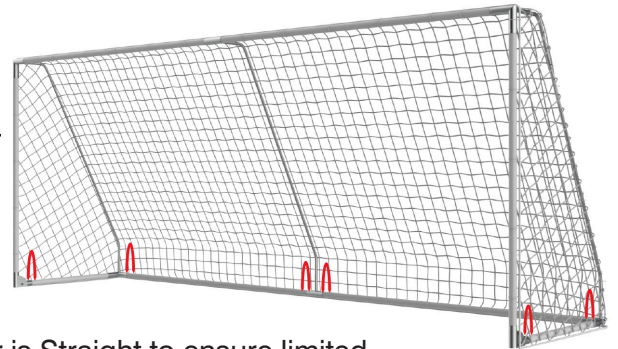

WARNING

- Never hang or climb on goal.
- Always anchor goal
- Unsecured goal can fall over causing serious injury and death.
- This goal is designed and manufactured to be used as a football goal.

Net Installation

1. Remove net from poly bag and locate the top 2 guide tabs, these have been installed on the net to guide you to set up. 2 Tabs for top right and top left of the Cross bar. Once in position, simply use a bungee on top right and top left of the net holding the net in place.
2. Ensure the net is placed over the tension bars of the goal.
3. Once in place and held top right and top left, simply go around the goal and install the bungee cords.
4. Goal is now ready for use.

-  **Recommended Anchor Points**
- Front Uprights Hinge
 - Rear Tension Bar Corner Joints
 - Middle Tension Bar Ground Bar

Connection - Ensure the Ground Bar is Straight to ensure limited sagging of the cross bar.

If on artificial turf or hard fields of play please anchor with sand bags.

Fold & Store

1. Release some of the net tension by removing some of the bungee cords.
2. Remove the tension bars from the goal.
3. Remove pin from lower hinges.
4. Fold goal flat.

NOTE: If storing for a long period its recommended to keep in a dry cool places. Store on Cross Car is recommended.
