TEST CERTIFICATE

**Product Labelled as: “Blue 300mm Thick x 2mx2m” supplied by
“Hart Sports”**

This is to certify that the product as received by **Hart Sports**, has been assessed
according to the impact test procedure described in

Australian Standard: AS 4422 (Int):2022

Critical Fall Height: >3.0m

Test Date	Material Test Conditions	Critical Fall Height (h _c)
24/0/2023	Blue 300mm Thick x 2mx2m	>3.0m

Retest Date: October 2025

Reference: Returned to Client

The Australian Standard AS 4422 (Int):2022 details the usage of impact absorbing materials in children's playgrounds and defines relevant terms and conditions.

The Impact Attenuation Surface (IAS) shall have product labelling that uniquely identifies the product and its critical fall height. The product shall be labelled as Blue 300mm Thick x 2mx2m.

The fall height has been calculated relative to the nominated piece of equipment, and that no assumption has been made about the height of the user above that equipment.

This material shall also conform to the requirements of AS4685.0.2017.
Maintenance shall conform to AS4685.0.2017.

The results are only for the items tested. Test results will vary over time with varying climatic conditions.
